## GRAIN BALANCER PELLET

A feedlot concentrate pellet for sheep or lambs. The pellet ensures thorough and sustained mixing and low dust. Excellent feed conversion – ensuring stock achieve market weights without wasting your grain and time. This pellet is used when you have *no legumes* to add to your diet.

### Mixing Instructions:

Mix 120kg pellets per tonne of feed.

### Ingredients:

Lupins 30%, Limestone, Urea, Salt, Mill Run, Wheat 13%, Canola 38% Expeller, Palabind Molasses, Cummins Sheep Premix, Bovatec 15% Premix.

Contains Vitamin A, D3, E, Cobalt, Copper, Iron, Iodine, Manganese, Selenium, Zinc and Antioxidants (to prevent oxidation of minerals in premix and finished feed).

### **WARNING - CONTAINS UREA**

### Directions for use:

Keep dry as when wet, urea could become soluble and lead to urea toxicity. Introduce slowly and always ensure adequate "gut-fill" of forage before introducing feed supplements (this pellet at a lower inclusion rate for one week before going to recommended mix). Forage should be provided with the ration or offered ad-lib.

### Precautions:

Feeding this product to horses or other equines may be fatal.

This product **does not** contain Restricted Animal Material.

### Analyses.

M.E. – Ruminants	9.34	R.D. Protein – Ruminants	22.8
Fat	3.21	U.D. Protein – Ruminants	4.53
Fibre	7.75	Calcium	3.85
NDF	19.93	Salt	5.04
ADF	9.88	Potassium	0.75
Linoleic Acid	1.35	Sodium	2.00
Protein	26.85	Chloride	3.1

### Available In:

40kg.
