GRAIN BALANCER PREMIX

A feedlot concentrate for sheep or lambs. The loose premix maximizes feed conversion – ensuring stock achieve market weights without wasting your legumes, grain and time. This premix is used for when you have *no legumes* to add to your diet.

Mixing Instructions:

Mix 80kg concentrate per tonne of feed.

Ingredients:

Lupins 30%, Limestone, Urea, Barley 13.5%, Salt, Mill Run, Wheat 13%, Canola 38% Expeller, Palabind Molasses, Cummins Sheep Premix, Bovatec 15% Premix, Dicalcium Phosphate.

Contains Vitamin A, D3, E, Cobalt, Copper, Iron, Iodine, Manganese, Selenium, Zinc and Antioxidants (to prevent oxidation of minerals in premix and finished feed).

WARNING - CONTAINS UREA

Directions for use:

Keep dry as when wet, urea could become soluble and lead to urea toxicity. Introduce slowly and always ensure adequate “gut-fill” of forage before introducing feed supplements (this premix at a lower inclusion rate for one week before going to recommended mix). Forage should be provided with the ration or offered ad-lib.

Precautions:

Feeding this product to horses or other equines may be fatal.

This product **does not** contain Restricted Animal Material.

Analyses.

M.E. – Ruminants	7.73 MJ/kg	R.D. Protein – Ruminants	39.88 %
Fat	3.04 %	U.D. Protein – Ruminants	4.84 %
Fibre	7.52 %	Calcium	6.65 %
NDF	13.38 %	Salt	6.28 %
ADF	9.34 %	Potassium	0.57 %
Linoleic Acid	1.17 %	Sodium	2.49 %
Protein	45.00 %	Chloride	3.84 %

Available In:

40kg.
